BIOSECURITY GUIDE FOR EXHIBITORS

GS-AN-2094
Version 6

INTRODUCTION

Dear exhibitor, the following is a basic biosafety guide for the proper development of your participation in our trade shows and events. From Corferias, we invite you to have in mind the points that we expose here, to develop an event that meets all the conditions to guarantee a safe experience.

In everyone's care, there we are!

EXHIBITOR'S RESPONSIBILITIES AT TRADE SHOWS AND EVENTS

Comply with the measures established by Corferias regarding to Biosafety.

Have a Biosafety Protocol **defined for your company** (individual and legal entity).

Carry out the **hand washing** protocol.

Have at your stand **glycerinated alcohol minimum of 60% , disposable towels and face masks.**

Comply with the cleaning and disinfection protocols established in your stand, guaranteeing frequencies, products, processes, among others, always prioritizing the surfaces with closer contact.

Inform the logistics staff of the Trade Show or Event in case of presenting symptoms such as **respiratory distress, flu**, among others, for the pertinent purposes.

Have **suitable containers** for handling and waste management.

Try to use **debit and credit card** for the sale of your products.

Avoid agglomerations **in your stand**.

Attend the socializations and / or training (**virtual or face-to-face**) on Biosafety, which are scheduled by Corferias.

ASSEMBLY COMPANIES RESPONSIBILITIES

Comply with the measures stipulated by Corferias regarding to **Biosafety**.

Always stay in the **assigned area** for intervention, with the number of authorized assembly people and at the schedule established.

Carry out **the hand washing protocol**.
